PROFILE

Full stack developer with 12+ years of experience building web applications, e-commerce sites, mobile apps and Jira plugins. Currently working with React.js, Next.js, Spring Boot, MongoDB and Python, and publishing a commercial AI-powered app on the Atlassian Marketplace. Comfortable owning a project from planning and design through development, testing and client hand-over.

TECHNICAL SKILLS

Front end: React.js, Next.js, Redux, JavaScript, jQuery, Ajax, HTML, CSS

Back end: Java (Spring Boot), Python, PHP (Core PHP, Laravel, CakePHP, WordPress, WooCommerce)

Databases: MongoDB, MySQL, SQL

Atlassian: Jira administration, Jira dashboards and client accounts, Jira plugin development

Platforms: Linux, Microsoft Windows

EXPERIENCE

Software Developer Sept 2020 – Present
Concepts & Beyond Inc.

- Built At a Glance AI Telemetry Dashboard for Jira, a commercial Jira Cloud app on the Atlassian Marketplace that shows sprint status, builds, commits, code quality and test coverage in one dashboard, with an AI chat for asking questions about that data.
- Worked on integrations with GitHub, Bitbucket Pipelines, Jenkins, Travis CI, SonarQube and SonarCloud.
- Develop and maintain web applications using React.js, Next.js, Spring Boot, MongoDB and Python.
- Manage and update the company website, conceptsandbeyond.com.
- Set up Jira projects, dashboards and customer accounts to meet each client's requirements.

Software Developer (Web & Mobile Apps) Nov 2016 – Aug 2020
Feyntech, Raipur

- Built native mobile apps, including APAS & Co. and Shikarpuri Samaj.
- Developed a plugin for Jira Server.
- Built an automobile accounting web application.
- Delivered client web applications such as mbbuilders.in, myinvestorfirst.com, midataview.com, bravamarketing.com and aestheticinstitute.co.in.
- Handled testing, planning and project structure.

Software Developer May 2015 – Aug 2016
Suncrossonline, Bhilai

- Developed e-commerce and business websites, including ramkrishnacarehospitals.com, myh2oro.com, ssrcivilcon.com, shrishtiarchitects.com, spiritualinitiative.org and incubeventures.com.
- Planned and managed the front-end and back-end structure of each site and took part in project design.

Software Developer (Web & Mobile Apps) Sept 2014 – May 2015
CGPostal, Raipur

- Developed and maintained government-managed web applications for CGPostal, including cgpost.gov.in and appost.in.
- Designed, tested and planned the project structure for each application.
